## **Savage Gear 3D Line Thru Trout 25cm**

The brand new 25cm Line Thru is a great size for big fish and light enough to cast with the right gear.

The 3D Line Thru Trout is made from a super detailed 3D scan of a real trout. The innovative line thru Y-system allows you to put the hooks on either the back or the belly, depending how you want to fish the lure. When the fish attacks the lure and gets hooked, the lure shoots up the line and away from the fish, so the fish can't use the weight of the lure to throw it!

The swimming action of the lure is as close to the real thing as you can imagine ? it literally swims like a live trout and it can trick even the most clever pike into attacking!

2 models available, a slow sink (SS) version with the line coming thru the mouth for shallow presentation and a moderate sink (MS) with line coming thru the forehead ? to create a "stay" down swimming pattern ? so you can fish the lure at depth all the way to the boat! Both sink rates have horizontal balance on the drop!

- Y-Line Thru system ? you can mount hooks on belly or back
- Superior 3D details
- Mesh reinforced joints
- Hook slot in the harness both belly and back
- EU version pre rigged with 49 strand wire and hooks on belly
- Tournament hooks supplied.
