Since the 19th century, Mexico has been a constant source of inspiration for artists and photographers, who return again and again to document the dense tapestry of its culture and to record precise images of its breath-taking terrain. "Mexico Through Foreign Eyes" contains 225 black and white and colour images taken by over 50 photographers from around the world including Paul Strand, Tina Modotti, Abbas, Linda Connor and Kent Klich. The accompanying 15 texts, presented here bilingually in English and Spanish, combine with the photographs to present a diversity of visions of Mexico: intuitive, surreal, documentary and mythic.
